## THE SLOPES OF MYSTIC MOUNTAIN

**Beginner Area:** This area is adorned with colorful animals and padded towers for the beginners to ski and snowboard around, under, and unfortunately sometimes over.

**First Step:** Large beginner bowl area. This slope is perfect for skiers and snowboarders who have progressed past the surface lift and are working on their turning abilities.

**Geronimo:** Our longest slope at one-half mile in length. By taking this slope, our guests are utilizing the easiest way to the bottom of Mystic Mountain. A laser-guided system was used to cut this beautiful trail, which is excellent for learning to ski or snowboard.

**Grizzly Run:** A step up from Geronimo with more thrilling terrain for those new intermediates. This slope also has an incredible view of the Laurel Highlands.

**Nose Dive:** Another gorgeous intermediate trail for those that can tackle Grizzly Run. This slope is a short, but steep descent, which exits onto Geronimo Slope.

**Cliff Hanger:** When your stomach meets your throat, you're halfway down this expert trail.

**Showboat:** This trail is located under the quad chair lift, which provides plenty of onlookers to watch skiers and riders devour this challenging expert trail.

**Glade Run:** This trail is located beside Showboat and provides aggressive tree skiing and riding for those experts daring enough to show off their skills.
